

# CONNECT TO THE CLOUD AND BEYOND

Cloud Access  
at ATLO1

Connecting to the major clouds is no longer an option; it's a requirement for business. Now it's easier than ever to gain the access you need with direct connectivity to in-market and latency-optimized regional cloud on-ramps. You choose the provider, technology, bandwidth speed, and locations to connect.

Whether it's dark fiber, fronthaul metro fiber, or anything in between, your network team can customize the solution that fits them, and that gets you to the cloud of your choice faster.

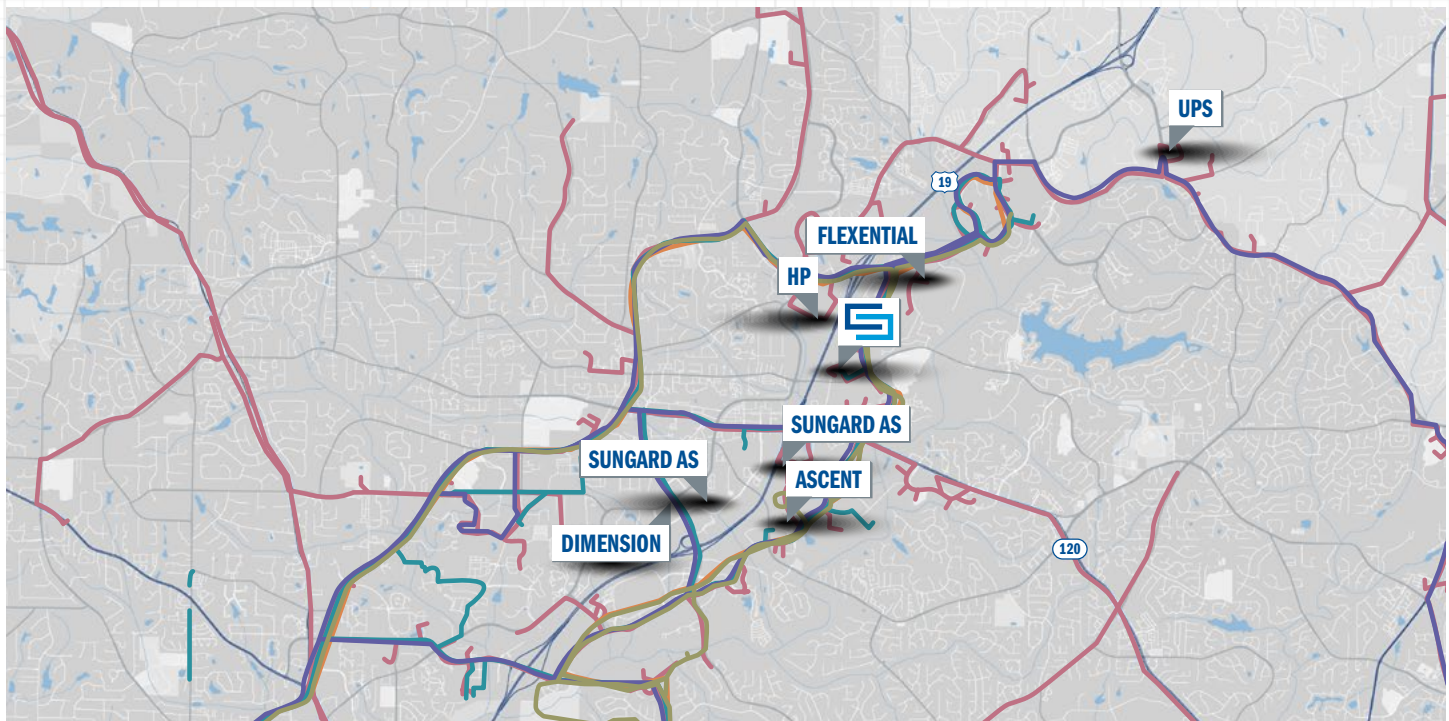

The world runs on data. Data runs on STACK. | [sales@stackinfra.com](mailto:sales@stackinfra.com)

STACK's ATL01 facility in Alpharetta is already centrally located in close proximity to Atlanta's business hubs and major Fortune 500 campuses. Nine carriers provide immediate access, and clients can choose from a variety of providers and options:

	DARK FIBER	WAVES	ETHERNET	ELASTIC BANDWIDTH
Zayo	- Equinix AT2/AT3 - Digital Realty ATL1 - Colo Alt - INAP	- Equinix AT2/AT3 - Digital Realty ATL1 - Colo Alt - INAP	- Equinix AT2/AT3 - Digital Realty ATL1 - Colo Alt - INAP	<b>CloudLink</b> - Azure - AWS - GCP - IBM BlueMix
