

NAL01/FUTURE EXPANSION

The Golden Triangle means low latency and high potential.

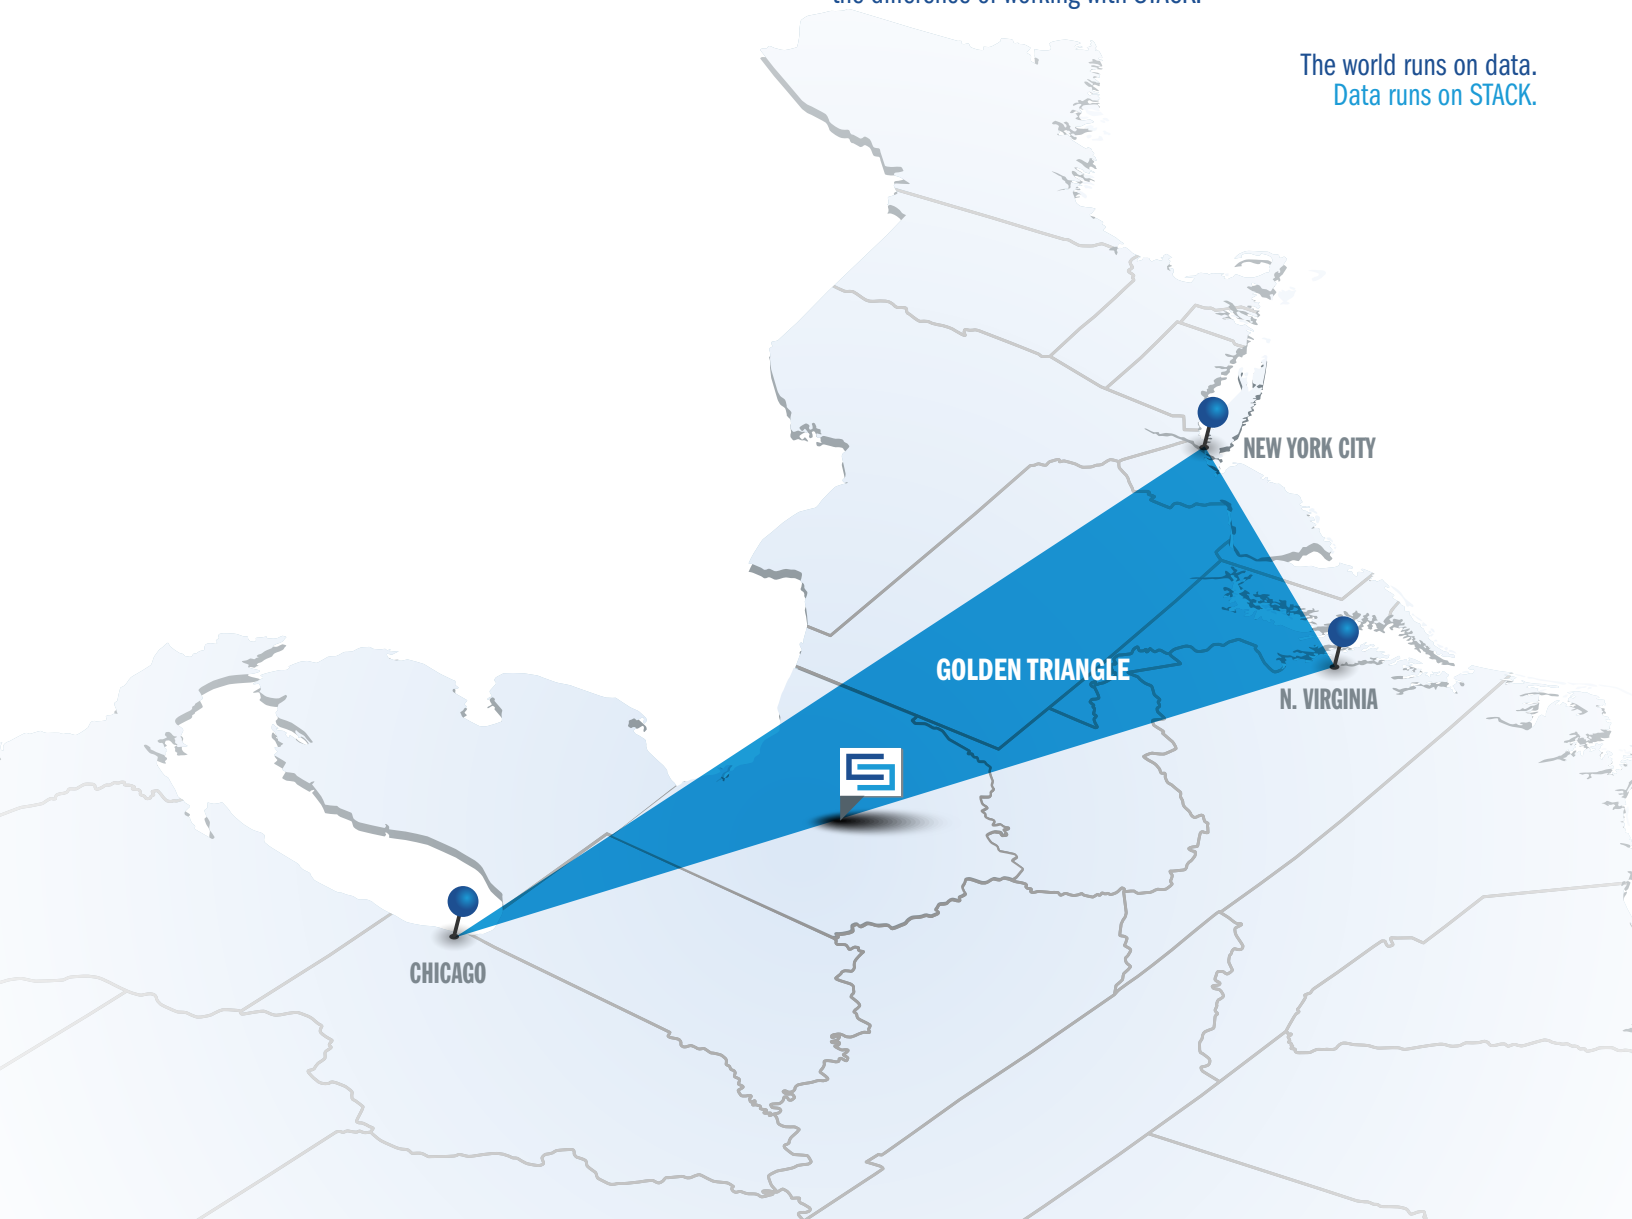

The world runs on data. Data runs on STACK. | sales@stackinfra.com

New Albany is at the center of the Golden Triangle, a regional hotspot of data transmission routes and home to two-thirds of the U.S. population. Located 15 miles northeast of Columbus, Ohio, this data-center-friendly city is the new hyperscaler growth region of the Midwest with low-latency connectivity to the Midwest and Northeast, a low-cost business climate, excellent power infrastructure, and minimal natural disaster risk.

- **Fast, Right-Sized Capacity:** Choose a Hyper STACK build-to-suit with the STACK Basis of Design for maximum flexibility and optionality.
- **Low TCO:** Ohio offers some of the lowest power costs and sales tax rates in the Midwest, and the state's sales tax abatement program offers 100% exemption of sales tax on construction materials, computer equipment, mechanical and electrical equipment, cooling systems, and power infrastructure for eligible projects.
- **Low Latency to Major Markets:** New Albany is close to all major Midwest population zones, including Chicago, as well as New York, Northern Virginia, and Atlanta via both dark and lit fiber routes.
- **Expansion Opportunity:** With available 17 acres of land and over 50MW of power on the new STACK-New Albany Expansion Campus.

STACK is the first data center wholesale provider in this region and provides you everything you need for as much growth as you want. Now is the time to discover New Albany. And it's time to experience the difference of working with STACK.

The world runs on data.
Data runs on STACK.
