

## **STACK INFRASTRUCTURE Expands Leadership Team with the Appointment of Mike Casey as Chief Data Center Officer**

**DENVER, CO – APRIL 30, 2019** – STACK INFRASTRUCTURE (“STACK” or the “Company”), the data center company built from the ground up to address the technology infrastructure needs of rapidly scaling enterprises and hyperscale businesses, today announced the appointment of Mike Casey as Chief Data Center Officer. Mr. Casey will lead the engineering, construction, commissioning, and operations of STACK’s data center portfolio.

The newest addition to the STACK leadership team, Mr. Casey brings a proven track record of delivering customized data center solutions and achieving high client satisfaction through operational excellence. Prior to STACK, Mr. Casey held senior leadership roles with T5 Data Centers including Chief Operating Officer and President of T5 Facilities Management. Earlier in his career, he was a Vice President in Jones Lang LaSalle’s Project and Development Services group and a member of The Staubach Company’s National Contact and Data Center Practice. In 2017, Mr. Casey received The Uptime Institute’s Leadership Award as Operations Pacesetter.

“Mike’s seasoned insight into data center development and operational excellence matches perfectly with our strategy for STACK, which is to align our offering with our clients’ growth trajectories, so that we are always able to provide the solutions they need in the places where they want to be,” said Brian Cox, Chief Executive Officer of STACK. “His hands-on approach and experience as a trusted advisor to clients further position us as a partner of choice for hyperscale and enterprise users as they consider their requirements now and in the future.”

“I am excited to join STACK at this remarkable time of expansion and unlimited opportunity,” Mike Casey added. “The STACK team has established itself as a true partner to clients on the basis of its willingness to bring creative solutions to the table and track record of delivering on its promises. I look forward to building upon this solid foundation to support our clients’ rapidly evolving technology infrastructure needs.”

STACK is committed to being the data center industry leader in building and delivering flexible critical infrastructure solutions that meet and support the complex requirements of enterprise and hyperscale deployments. The Company's offering includes hyperscale campuses and build-to-suit data centers ("HYPER STACK™"), immediately available wholesale colocation and private data suites ("READY STACK™"), and powered shell options ("POWER STACK™").
