

THE FLEXIBILITY YOU WANT, THE LOCATION YOU NEED

1100 MEMOREX

The world runs on data. Data runs on STACK. | sales@stackinfra.com

Whether it's a powered shell, a turnkey rack-ready data center lab, or something custom, 1100 Memorex provides the flexibility you need in one of the most sought-after data center markets nationwide.

This site offers up to 100 MW of utility power and 560,440 square feet in the heart of Silicon Valley, only minutes from San Jose International Airport. The building can even serve up to two tenants with completely separate entrances.

It's never been this easy to get space and power on a massive scale, perfectly situated in Santa Clara. Learn more about 1100 Memorex. And scale for the future where it matters most.

The world runs on data.
